

# **2022 IEEE Electrical Design and Technology of Modern Electronic Systems (DTMES) Workshop**

## **DTMES 2022**

**February 8-10, 2022, Addis Ababa, Ethiopia**

This workshop is currently in the planning stages. The intention is to grow the workshop into an IEEE's flagship conference of the African continent that provides a platform for academics and industry professionals, from all over the world, to share ideas, present their latest research and their latest system designs. DTMES is sponsored by the IEEE Electronics Packaging Society. This workshop will help to strengthen the IEEE EPS and other IEEE societies in Addis Ababa and other major cities in Africa

## **Sponsorship Options**

DTMES is the first workshop of its kind in Africa. It will be an excellent forum to highlight the latest advances in microelectronic system as well as semiconductor technology. The forum offers a great opportunity for sponsorships and for the related companies to build their brands in this leading international platform. Sponsors will be given high visibility on the DTMES web site, prominent placement of their logo/info in the conference program guide, access to the DTMES conference sessions, and booth opportunities.

There are six different sponsorship packages available. Each level of sponsorship provides a different level of company exposure.
